Curriculum Mapping To Improve Instruction

2008-2009

- Sessions in 2008-2009 will focus on using curriculum maps to improve instruction to students
- Sessions will be connected to recently distributed curriculum

October: Curriculum Mapping and Instruction

Content of this session aims to answer these questions:

1. What have schools done to integrate mapping into the curriculum?
2. How can I meet the needs of diverse learners through Curriculum Mapping?
3. How can I differentiate the curriculum for varying student needs?

January: Curriculum Mapping and Math Instruction

Content of this session aims to answer these questions:

1. How have schools used Curriculum Mapping for mathematics planning?
2. How can I meet the needs of diverse learners in mathematics through Curriculum Mapping?
3. How can I differentiate the mathematics curriculum for varying student needs?

March/April: Curriculum Mapping and Language Arts and Reading Instruction

Content of this session aims to answer these questions:

1. How have schools used Curriculum Mapping for Language Arts and Reading planning?
2. How can I meet the needs of diverse learners in Language Arts and Reading through Curriculum Mapping?
3. How can I differentiate the Language Arts and Reading curriculum for varying student needs?
